PROFESSIONAL SUMMARY

Implementation Engineer with 2+ years delivering 6 enterprise SaaS implementations and 40+ REST API integrations with SAP and Salesforce. Cut warehouse onboarding from 30 days to 3 hours across a 300+ warehouse network. Owns client delivery end-to-end, from requirements and data migration through UAT, go-live, and production support.

PROFESSIONAL EXPERIENCE

ZINO TECHNOLOGIES

Bengaluru, Karnataka

Implementation Engineer

Jun 2024 – Present

- Gathered requirements across 6 enterprise SaaS implementations, translating them into solution designs, integration specs, and configuration plans
- Built automated Python and SQL workflows and pipelines that cut manual data tasks from 2+ hours to minutes
- Developed 40+ REST APIs and integrated them with SAP and Salesforce, collaborating with both teams to automate data exchange and sync
- Engineered form and master data validation rules that stop invalid entries before they reach downstream systems
- Designed cron-based sync jobs that auto-create missing records, eliminating cross-system mismatches
- Executed data migration and validation for 4 client go-lives, reconciling records with SQL and Python
- Partnered with clients across 6 implementations as primary point of contact, leading stakeholder communication and UAT through sign-off
- Supported 4 production go-lives through stabilization, trained 50+ client users, and handed off deployments to Customer Success

KEY PROJECTS

WAREHOUSE IMPLEMENTATION & MASTER DATA AUTOMATION
